Cold-Blooded Horror Reigns in Petrograd.

Moscow Executioner Shoots Hundreds Nightly.

BY ARTHUR SEARS HENNING.

(EXCLUSIVE DISPATCH.)
AMSTERDAM, Sept. 26.—The Russian Bolshevik government has issued a decree rescinding its reign of terror, according to the Minister of Moscow.

The question was discussed at a meeting of the central committee of the Soviet, the newspaper says, and when Premier Lenin expressed an earnest desire to return to orderly methods of government, a majority of those present supported him.

WASHINGTON, Sept. 26.—Details of Russian atrocities describing scenes of horror almost beyond belief were received today by the State Department.

The massacre of thousands at Petrograd and Moscow by the Bolshevik mobs was reported to the department from the most authoritative sources. Prisoners are packed so full that the unfortunate victims of Bolshevik wrath are left without care or food.

British Consul Lockhart was imprisoned in the Kremlin September 4 and was still there September 9. Members of the British diplomatic mission and the French Consul-General and military attaches took refuge in the American Consulate at Moscow when orders were issued for arrest of diplomats and still had asylum there September 9, the last State Department informant heard of them.

The massacre of Russian citizens reported continuing in an appalling manner. In Moscow there were about 150 executions nightly and more than 1400 people have been shot in retaliation for the attempt to assassinate Premier Lenin.

Violent elements of the Bolsheviks were in control in Petrograd in the period up to September 15. The State Department was advised that the Bolsheviks were then at a cold blooded terror that had thrown a palpable stillness over the life of the whole city. People were being arrested on mere suspicion and unknown numbers were shot daily at Cronstadt alone.

HOLD 1700 HOSTAGES.
It was reported that 1700 persons, mostly former officers, were being held as hostages for the lives of the commissars. No commissars have been killed since the assumption of power by the Bolsheviks.

About the first of September forty-five Englishmen were imprisoned on an order from Moscow in the fortress of Peter and Paul. This was on the pretense that proof had been found of a plot leading to the killing of Trotsky in which it was alleged that the Englishmen were implicated. There were also twenty French citizens in the same prison.

It is stated that prison conditions for Russians and Allied citizens would not be worse. The prisoners are crowded in groups of fifteen to twenty in small and very damp cells. Only two or three can lie down at the same time. They are permitted no exercise, have little air, no bedding and practically no food.

CZECHO-SLOVAKS TORTURED.
Recently forty-four Czecho-Slovak were captured while endeavoring to make their way to the Allied armies in the north. About the 15th of September they were discovered in an out of the way prison. They were starving to death. Twenty-nine are still in prison, fifteen were removed to a hospital in a dying condition.

During the week ending September 15 relief work for the prisoners was organized in the name of the International Red Cross, chiefly the initiative of the American Red Cross.

The department was informed that the Russian Minister of War holds a view that terror in Russia is daily assuming more frightful forms in the unanimous testimony of Russian soldiers who have just returned from Petrograd. In Petrograd no one is safe today. Machine-gun sniffs are heard day and night.

Often the Red Guards block streets to examine and plunder people caught in that area. They enter street cars, break into houses and restaurants, examining people, ravaging and destroying in their way. One said he saw man, wife and son of 7 dragged to the fortress and Peter and Paul. Among the victims was an English woman being held for mercy in English. Scenes in the prison are described as beyond the most horrible of the Czarist regime.

UPPER CLASSES SUFFER.
The terrorism is directed against the upper classes, which the Bolsheviks declare they intend to exterminate. In the Peter and Paul fortress there have been lately interned several hundred English and French, including officials. Two or more are crowded into a room until there is no space remaining in which they can lie down, and the unfortunate are compelled to remain standing without food or care.

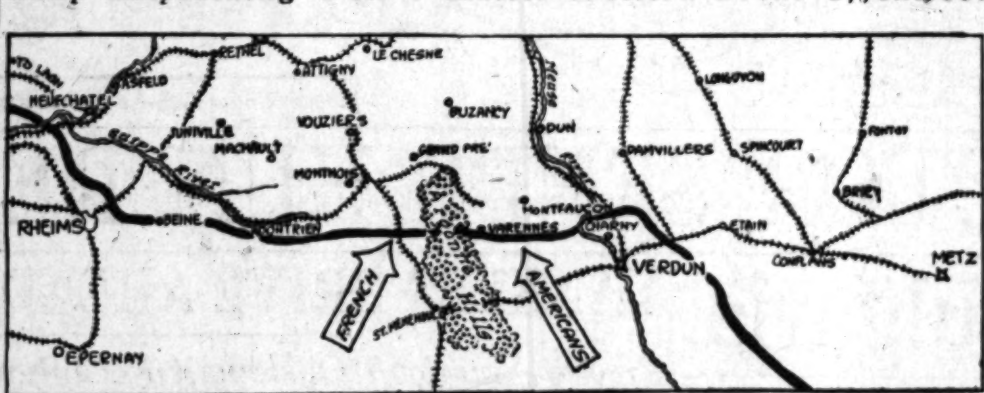

Recently, owing to lack of space in Petrograd, prisoners were sent to Moscow.

The Bolshevik government is doing nothing to stop the terror, the department was informed, Chicherin even declaring to neutral consuls that he expects foreign journalists as spies who will be treated accordingly.

A new decree describes the same punishment for aliens as well as for Russian suspected of counter-revolutionary participation.

SLAY GOVERNMENT FORMED.

The French and American troops have begun an important drive against the Hun flank in the region of the Argonne. The points of attack are indicated by the arrows. The objective of the movement is to cut the railroads that join the base at Laon to the region between Verdun and Rheims. The town of Vouziers is an important railroad center and is believed to be one of the places for which Foch is driving. The heavy black line indicates the present position of the Allies.

LIEUT. LINUS MURPHY, FOOTBALL STAR, DEAD.

Flight Lieutenant Linus J. Murphy, former L.A.C. football star, died last month in France as the result of injuries received when he made a forced landing in a mountainous country, a letter from Lieut. Corlin Moseley, former U.S.C. football star, informs Charles W. Keppen of this city.

Lieut. Murphy, Lieut. Moseley and Lieut. Warder Fowler, former Times automobile driver, were putting the finishing touches on their training at the same field, and Lieut. Murphy was making a practice flight when the accident occurred.

Last April Lieut. Murphy was killed as a draft slacker by Board No. 15 for failing to return his questionnaire, although he had been in France for four months at that time.

Lieut. Murphy was prominent in football and baseball at Dartmouth College, and was on the all-American hockey team that toured Canada several years ago. His parents lived in Plymouth, Mass. His aunt, Miss Cordelia Moseley and Mrs. Marie M. Stevens, with whom he lived here, No. 1357 Madison avenue, are both members of the Red Cross work.

WIRRA! WIRRA! COPS MUST BUY DRINKS.

(BY A. P. DAY WIRE.)

CHICAGO, Sept. 26.—Drinks will not be served to policemen after September 30 unless they pay for them, according to an agreement by Chicago saloon-keepers and made public today.

Some months ago brewers banned free drinks for policemen and saved several thousand barrels of beer.

LABOR NEWS BUREAUS APPROVED BY WILSON.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Sept. 26.—To keep the working men in the Allied and neutral European countries informed as to the true attitude of the laboring men of America toward the war, the Socialist Democratic League of the United States is to establish commissions at Milan, Paris and other cities.

Plans for this educational campaign abroad were approved today by President Wilson after they had been laid before him by Charles Edward Russell and the other members of the Socialist commission, which recently returned from Europe.

Members of the commission now are being selected subject to the approval of the State Department, which is to have general supervision over the work.

The President was told that until the Socialist commission went abroad the working men in Europe were in ignorance of the attitude of the workers in the United States on the war and other important questions. Members of the commission were received today by the President, who desired a first-hand report of the results of their trip.

PRO-GERMAN PLAN FAILS.

(BY ATLANTIC CABLE AND A. P.)

PARIS, Sept. 26.—Pleier J. Trevelstra, Dutch Socialist leader, who had been in Switzerland, failed to create an international Socialist bureau with headquarters at Bern, it is reported.

Trevelstra conferred with Swiss Socialists and it is said Socialists from several Entente countries, notably Italy, went to Switzerland to counter the plan.

It is understood the bureau, if created, would have had a defeatist tendency and that efforts were made to spread the movement through all countries at war with Germany. Pro-Germans in the United States were to have been approached, it is said.

Brotherhoods Discuss Labor.

(BY A. P. DAY WIRE.)

WASHINGTON, Sept. 26.—Questions of railroad service affecting employees were discussed at a conference here of heads of the four railway brotherhoods, Warren R. Stone of the engineers, A. B. Garson of the conductors, W. O. Lee of the trainmen and Timothy Shea of the firemen and engineers, with representatives of the labor division of the Railroad Administration.

BANKERS' LAST
UNIT PLEDGED.Association Urges Fighting for
Victory Peace.Unconditional Surrender Only
is President's Idea.Financier Warns Against the
Nonpartisan League.

BY A. P. DAY WIRE.

CHICAGO, Sept. 26.—Charles A. Hinch, president of the American Bankers' Association, addressing the annual convention today pledged the fortunes and lives of its 19,043 members to continue the war until a victorious peace is assured.

He declared bankers will keep on fighting "not to the last dollar, but to their unit of credit."

He said that "no peace that Ger-

many will approve will satisfy America. We must not conclude a negotiated peace. Nothing should be considered but an unconditional surrender."

Mr. Hinch said the government instead of restraining business, is encouraging it, and he expressed a hope for a continuation of this policy after peace. "Out of the chaos into which the nation was plunged, is coming the semblance of order," he added.

UNIVERSAL TRAINING.
He advocated universal military training as essential to commercial expansion and industrial growth.

The so-called Nonpartisan League," he said, "is the extreme manifestation of unrest. The avowed purpose of this organization, now strong in sixteen States, is political control by a class for a class and co-operative selling and buying. They are too shrewd to launch a new political party; their scheme is to secure control of the dominant political party of the city, county and State where they are operating. They are now practically in control of North Dakota. This movement should be curbed before it assumes the proportions of a prairie fire."

The convention will adjourn tomorrow, instead of Saturday, in order that members may hurry home to take part in the fourth Liberty Loan campaign.

At the final meeting of the national bank section, Oliver J. Sands, president of the American National Bank, Richmond, Va., was elected president. C. E. Handwood, vice-president of the Union Trust Company, Chicago, was chosen president of the savings bank section.

In extending formal welcome to the bankers, Gov. Lowden of Illinois advocated the budget system of taxation and urged that this is the time to begin preparation for paying off the nation's war debt. He paid a high tribute to "boys over there."

E. Mahoney, San Francisco; R. Anderson, Phoenix; J. F. Warren, Seattle, and M. F. Johnson, Portland.

BUILD UP YOUR BLOOD AND ENTIRE SYSTEM BENEFITS

When you feel badly all over but with no particular organ of your body noticeably out of order, you need a tonic for the blood. You require a medicine that will benefit the whole system. The blood reaches every part of the body and when it is built up the whole system quickly benefits.

Let the blood become deranged and deficient in needed elements and the nerves will be badly nourished and headaches, neuralgia, sciatica, functional paralysis and a host of other disorders may result. One such trouble is nervous headache and the success of the tonic treatment through the blood is described by Mrs. J. H. Morgan of Corvallis, Ore., who says:

"I was in a terribly nervous and run-down condition and suffered greatly from nervous headaches. My head seemed to be in a constant pain, and I had frequent dizzy spells. I was in a constant pain, and I had frequent dizzy spells. I was in a constant pain, and I had frequent dizzy spells."

Maxim Invents Unsinkable Ship
Hudson Maxim has invented it for the United States Shipping Board. The gases from a torpedo are white hot and travel thirty miles a second. They rend everything in their path. But Maxim stops them with a barrage of pulverized coal, oil and concrete. He tells the story of his great invention in the October Popular Science Monthly. To keep up-to-date also read—

PROMOTION FROM RANKS
Physically fit men between 18 and 48 years of age who are placed in class 1 by local draft boards, or who would be so placed except for occupational deferment, can not become candidates for commissions in the army until they have been inducted into service as privates, under the terms of the Adjutant-General's made public today and superseding previous orders on the subject.

Registrants placed in the subdivision of class 1 reserved for limited or special service, however, may be commissioned direct from civil life and no barrier is interposed to the commissioning of men direct from civil life, providing their boards have given them the deferred classification on dependency grounds.

Qualified registrants who have applied for commissions in army staff corps and who are desired by a certain corps may have their classification and physical examination by local boards advanced on presentation of a certificate from a chief of corps or department of the army. In cases where it is desired to commission a class 1 man, he may be inducted into service immediately and promoted thereafter.

To carry out the provisions of the order, Provost-Marshal-General Crowder today authorized local boards to examine and classify out of their ranks such registrants as may be affected by rulings.

Local boards are also authorized to examine and classify without regard to normal order such men as may be accepted by the navy and Marine Corps, in order that their immediate voluntary induction may be arranged.

Announcement of the date for the third draft lottery to give numbers determining in part the order of service of each of the 12,000,000 men registered for military service on September 12, will be given by Provost-Marshal-General Crowder for another day or two.

TRAINING CAMP RULING
Only men 37 years of age or over, or those within the new draft age, who are obviously disqualified physically for military service, will be accepted for overseas duty by the War Department Commission on Training Camp Activities and affiliated organizations. In announcing this today, Chairman Fredrick of the committee said men now working overseas with the commission and the Young Men's Christian Association, Knights of Columbus, Jewish Welfare Board, War Camp Community Service and American Library Association will be subject to draft call if they were in the United States. Chairman Fredrick said the war work organizations under his direction will not act as exemption in a single case.

MARINES TO RECRUIT
SAN FRANCISCO, Sept. 26.—Recruiting in the Marine Corps in Northern California and Nevada is to be resumed Tuesday, October 1, according to an announcement by marine recruiting headquarters here today. Three hundred men monthly are wanted from this district.

Recruiting will be opened to all classes of the draft and draft boards will be given credit for the men inducted into the corps, it was announced.

PRIEST BEING TRIED ON SEDITION CHARGE
NORFOLK (Neb.) Sept. 26.—Testifying today in the case of Rev. William Windolph, pastor of the Catholic church at Oshkosh, Neb., who is on trial in federal court here charged with making seditious statements, Mary Donahue Green, a member of the defendant's congregation, said that the accused priest gave her love poems and wrote her an improper letter.

The government also introduced in evidence will stockings and silk gloves, which Mrs. Green testified, the priest had given to her, but which she said she had never worn.

Anonymous letters attacking Father Windolph's character, which she admitted she wrote, were introduced by the defense in an effort to show Mrs. Green had a bitter personal feeling against the defendant.

HAS THE BIGGEST SURPRISE OF LIFE
Contractor's Wife Tells of Great Improvement. Hardly Realizes She Is The Same Woman.

Tanlac Overcomes Rheumatism and Other Troubles.

"Positively, the relief I have experienced since I began taking Tanlac is the biggest surprise of my life, for my sufferings had been almost more than I could bear," said Mrs. Charles Lewis, whose husband is a well-known contractor and who lives at 1434 West Twenty-second street, Los Angeles, the other day.

"Two years ago," she continued, "while living in Salt Lake City, I had a severe attack of rheumatism, which seemed to affect my whole system. At any rate, it left me with the worst kind of rheumatism in my hips and legs, and I would be so racked with pain that I almost cried out in agony. The muscles around my heart, too, seemed to cramp and draw till I was in such great distress that I would almost faint. Then my stomach got all out of order and I would suffer terribly from spells of indigestion. I lost my appetite and got so that I just hated to go to the table at meal times. Everything I forced down would sour and I would have such an awful feeling of fullness that I could hardly breathe, and the misery in my stomach would almost prove me mad. My nerves were all on edge, and anything to be I would roll and toss for hours without getting a bit of sleep. I was getting worse all the time in spite of everything and I nearly despaired of finding any relief.

"When Tanlac was brought to my attention about six weeks ago I got me a bottle, and in a few days after starting on it I began to feel better. I have only taken three bottles so far, my stomach has been toned up and my food gives me little or no trouble from indigestion. That rheumatism is fast leaving me and I hardly feel it now any more. My nerves are quieter, I sleep like a child and feel so much better in every way that I can hardly realize I am the same woman I was before. From the good it is doing that I started on it, my daughter is taking it and she is improving right along."

Tanlac is sold in Los Angeles, Pasadena and San Diego by The Owl Drug Co., under the personal direction of a special Tanlac representative. (Advertisement.)

To the right of the binding, there is a series of white circular punch holes, likely for a binder or folder. RAILWAY MEN PROTEST ANTI-POLITICAL RULE.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Sept. 26.—Heads of the four leading railroad brotherhoods conferred today with Director-General McAdoo to protest against his recent order forbidding political activity by railroad employees or officers. They expressed the belief that this restriction deprived them of their rights, which in some localities tended to safeguard their interests. Mr. McAdoo explained that, since railway men now are essentially government employees, it is essential that they abstain from political action, individually and collectively, to avoid any danger of the use of such a great army of workers for partisan advantage.

SHORT-LINE RAILWAYS SEEK MADDOO CONTROL.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Sept. 26.—Negotiations over the proposed control for short-line railroads between the Railroad Administration and the representatives of the American Short-Line Railroad Association have been renewed. It was announced today that a conference between Director-General McAdoo and the railroad men will be held Saturday.

KINDERGARTEN NOT DIGNIFIED.

(EXCLUSIVE DISPATCH.)
SAN DIEGO, Sept. 26.—"Infantorium," "kindergarten" or the more dignified "nursery" are words that have been considered at the local County School Superintendent's office to supplement the word "kindergarten," which Supt. J. F. West says should be obliterated. The word "nursery" from the Greek, meaning a temple or place for the youth of the land, is suggested by George P. Stapp of the County Superintendent's office.

THREE PARTIES NAME OSBORNE.

Congressman Pays \$58 for All Nominations.

Prohibitionists Pencil Him on Their Ticket.

Lieut.-Col. McKeely Commands Fiftieth Infantry.

BY ROBERT B. ARMSTRONG.
(EXCLUSIVE DISPATCH.)
WASHINGTON, Sept. 26.—Congressman H. Z. Osborne tonight telegraphed Secretary of State Jordan that he would accept the nomination tendered him by the Prohibition party in his district. This was in response to a wire from the Secretary of State's office advising the Congressman that he had been nominated by the writing of his name on sufficient ballots of the Prohibition party to win the honor. He was asked if he would accept and if so to furnish his expense statement. This he did. His expenses he wired were nothing.

To secure the Republican and Democratic nominations which were made without serious opposition Congressman Osborne spent a total of \$58. This expense statement is now on file at Sacramento and probably will establish a low record—nomination on three tickets for Congress for a total of \$58. He is accused here of political Hooverism.

McKEELY SEES OSBORNE.
Lieut.-Col. George McKeely, formerly assistant Federal District Attorney, in Los Angeles, now in command of the Fiftieth Regiment of Infantry in the Regular Army was a visitor in Washington today. Some time ago he entered the training camp through the assistance of Congressman Osborne and has steadily been promoted until now he is at the head of one of the crack regiments with every prospect of overseas duty soon.

Col. McKeely called on Capt. Osborne and some of his other friends from Los Angeles who are here and are making arrangements to unite all the battalions of his regiment returned tonight to Camp Sevier.

Congressmen from California who have been notified by the Judge-Advocate-General that all applications now on file for positions in his section of the army are to be disregarded and that hereafter applications will be made through regular channels.

This is taken to mean that hereafter the recommendation of United States District Attorneys and district Federal judges will be necessary before candidates for positions in the judge-advocate's department will have much prospect of appointment.

There are several hundred applications on file from California lawyers all anxious to serve the War Department as lawyers either on the staff or in the field. Such applications should now make new applications through either the Federal District Attorneys of the State or through the nearest United States District Federal judge.

MELLEN MARRIED LIFE BARED IN WIFE TRIAL.

(BY A. P. NIGHT WIRE.)
PITTSFIELD (Mass.) Sept. 26.—David Lamar, known as the "wolf of Wall street," visited at Charles S. Mellen's home in Stockbridge three times during the summer of 1915, and on two occasions remained for dinner, although Mr. Mellen made every possible suggestion that Mr. Lamar depart except to tell him to go. Mr. Mellen testified today while being cross-examined in his case to seek justification in living apart from his wife.

FORMER RAILROAD PRESIDENT TELLS OF ASTROLOGIST LETTERS TO SPOUSE.

(BY A. P. NIGHT WIRE.)
PITTSFIELD (Mass.) Sept. 26.—David Lamar, known as the "wolf of Wall street," visited at Charles S. Mellen's home in Stockbridge three times during the summer of 1915, and on two occasions remained for dinner, although Mr. Mellen made every possible suggestion that Mr. Lamar depart except to tell him to go. Mr. Mellen testified today while being cross-examined in his case to seek justification in living apart from his wife.

LETTERS ALLEGED TO HAVE BEEN WRITTEN BY MRS. MELLEN TO THE PRESIDENT OF THE UNITED STATES.

Letters alleged to have been written by Mrs. Mellen to the President of the United States, were read today by counsel for Mr. Mellen. The letters showed that Mrs. Mellen had written to the president more often than they could answer. Mrs. Mellen was given detailed information on the horoscope of a person born in November, the month in which David Lamar died. It predicted a second marriage for the subject, a long life, and that her greater happiness would come in her later years.

LAMAR UNWELCOME.

When further cross-examined Mr. Mellen testified that he had known David Lamar for six months prior to the latter's going to the Federal prison at Atlanta, Ga. On the first visit Mr. Mellen said he could not get Lamar to leave and had to ask him to dinner in order to get something to eat himself. Guests at the Mellen home were introduced to Lamar.

IT WAS AT MRS. MELLEN'S SUGGESTION THAT MR. MELLEN WENT TO THE VANDERBILT HOTEL.

It was at Mrs. Mellen's suggestion that Mr. Mellen went to the Vanderbilt Hotel. It was a more expensive hotel than he was accustomed to stopping at, the former railroad president told the court. Mr. Mellen was excited as he related briefly his life story on the stand. He told the court he claims to have an income tax return, Mr. Mellen has an income of \$53,000 a year.

CEDDED WIFE PROPERTY.

All his property in Stockbridge would have been ceded to Mrs. Mellen had the present trouble not occurred. Some of the Stockbridge property had been in her name for some little time, but she did not know Mr. Mellen testified. This property does not constitute any part of Council Grove.

Mr. Mellen had been indicted so often I could not give any idea of how many times, Mr. Mellen said.

The first indictment was in December, 1912, and the others followed pretty regularly thereafter.

PROTECTIVE BOND BUYING.

BY CHAPIN HALL.

Since the figures have been announced setting the amounts for the loan, the question is asked in almost every community: "Is our quota a fair one?" The first impression is apt to be that it is not, based on the staggering totals, but investigation indicates that the quotas have been very fairly allotted in proportion to the total bank resources of the community.

The accuracy and experts in the Treasury Department have figured out quotas based on almost every rational method that has been suggested. Many of these are highly complicated and intricate, but nearly all lead to approximately the same result as is reached by using the total bank resources as a basis. For the sake of simplicity, the Treasury Department is convinced that no fairer method exists.

Another matter recently brought out by Henry S. McKee, chairman of the Southern California Liberty Loan State Committee is the result of oversubscription of quotas. In the previous loans Southern California has over-subscribed its quota in about the same proportion that the rest of the United States has. Now the question is asked: "Suppose that it should over-subscribe its quota for this loan by a big margin—a margin greater than many other communities—that would be a consequence?"

When the war ends these bonds will be a debt of the United States government to its people. It will be necessary to levy taxes for the purpose of paying off these bonds. Suppose that these bonds were to turn to us, as bondholders, every year, more money than we pay in taxes. Therefore by buying Liberty Bonds, which are being sold at a discount, we are actually receiving money for the future.

NEW YORK MARKET REVIEW

BY A. F. NIGHT WIRE.

NEW YORK, Sept. 26.—The market of comparative dullness to day was virtually devoid of feature except for pool activity concentrated on a few special issues.

This buying, which became very marked in the afternoon session, was noteworthy in American steel American, Baldwin Locomotive, American Car, American Locomotive, Railway Steel Spring and American Ice. Early heaviness, which had its inception in a sharp decline in the Mercantile Marine issues after their period of initial strength, influenced the market elsewhere, but the reaction met a steady check when indications of support appeared for United States Steel. That stock, after relapsing almost a point to 109.34, forged ahead steadily and ended at 111.14. The session closed with a general upturn in progress.

The good war news accentuated the rally and the professional element which sold stock earlier were disposed to retire outstanding contracts which became evident by a forceful character was going on special. A rapid upturn in the Liberty Bonds, coupled with further advance in foreign issues, notably Paris 6 1/2, which reached a new high figure at 97.34, also had a beneficial effect on general sentiment. The buying of the equipments was generally ascribed to prospects of largely increased activity in connection with pending contracts. Sales amounted to 250,000 shares.

The general bond market moved narrowly and uncertainly. Total sales, par value, \$7,775,000. United States old issues, were unchanged on call, but the registered 4 1/4 advanced quarter of a point on sales.

Liberty Bonds closings: 4 1/4, 109.22; First convertible 4 1/4, 95.61; Second convertible 4 1/4, 95.86; third 4 1/4, 95.98.

Thirty Feet of Danger

The intestinal canal is an important part of every individual, important every inch of its thirty feet.

The upper portion of it is intended for the digestion of food and absorption of its useful portions. But the lower part is concerned with the elimination of waste material.

It is, in other words, the great sewer of the body. The more food eaten, the greater the waste. If a sewer becomes clogged up, its contents stagnate and become more and more dangerous.

Constipation means more than failure to evacuate the bowels regularly and thoroughly. It means stagnation, increased fermentation, putrefaction and germ action. Increased amounts of irritating and poisonous substances are formed. Absorption of these into the blood follows. Self-poisoning results.

Danger, disorder, disease, or even death follow.

Pills, purgative mineral waters, castor oil, salts, etc., do not cure constipation or prevent its consequences. They make it worse because they do not only irritate the bowels, but they "wear out" in effect and so must be taken in increasing doses, making constipation a habit.

But the Nujol Treatment for Constipation overcomes constipation by helping Nature re-establish easy, daily, thorough bowel evacuation as "regular as clockwork."

Nujol prevents stagnation and self-poisoning.

Nujol forms no habit, except a natural, healthy habit.

After Nujol has trained the bowels to act, it can be dispensed with.

FIND REALTY FIRM A FRAUD.

Schiaffino and Grosso, Ltd.,
Exists no More.

Partners Found Guilty of Perpetrating Swindles.

Said to Have Mulcted Many in Fake Land Deals.

The firm of Schiaffino and Grosso, Limited, dealers in real estate to which it had no title, was dissolved in the United States District Court yesterday. It took a jury in Judge Bledsoe's court but a few moments to reach a conclusion as to the guilt of the two partners, who will be sentenced tomorrow.

The judgment will put an end, for a time at least, to the activities of two men who, according to the testimony, covered the country at different times with their crooked transactions. The partnership lasted about five years and it is estimated that in that time thousands of dollars have been secured by these men. Both of them are Italian, and Schiaffino, who is about 60 years of age, has served two sentences in San Quentin, while Grosso, it appears, had two narrow escapes from conviction.

Their favorite plan of operation, it developed, was to secure a description of real estate, usually vacant lots, but valuable, and place them in the hands of agents to sell, they, in the meantime, going to some other part of the country, where subsequent operations were carried on.

That they swindled a number of people in Los Angeles and vicinity by this method is known, but the specific charge was an effort to dispose of a lot owned in Long Beach by Charles F. Dreyer, known as lot No. 6, of the Millheimer tract valued at \$1000, for which B. E. Pratt, a real estate agent, agreed, in May, 1916, to pay that amount of money. Half of the purchase price had been placed in escrow with the Marine Trust and Savings Bank of Long Beach, and the deal was about to be perfected when the storm broke. Pratt got his money back.

Among the witnesses in behalf of the government were William M. Brown, of Boston, and E. Craig Taylor, of Atlantic City, N. J., both men connected with banks in those cities, who testified as to the financial dealings of Schiaffino and Grosso, when they were operating in that part of the country.

GERMAN-MADE STRIKE ENDED.

Trouble with Mexican Laborers Settled When Facts are Explained.

German agents from Mexico attempting to foment discord and strikes among Mexican laborers are believed to have been the cause of a temporary strike of 200 Mexicans at the Los Nietos plant of the Pacific Sewer Pipe Company yesterday.

When the Sheriff's office was notified of the situation Deputy Sheriff Reyes was detailed to the case. After conferring with several of the workmen Reyes found that a man had been agitating trouble for several days, but had mysteriously disappeared shortly after the strike. Assisted by three Mexican laborers, Reyes soon convinced the men that they had no grievance, and on explaining to them that it was the work of pro-German agitators the men immediately resumed work.

He says the condition is due to an area of high pressure all over the United States, there being three atmospheric whirls resulting, one in the New England States, one in the Southern States and the third one in the Colorado River basin. He predicts that the weather will clear late today without serious results from the rain.

Heavy storm clouds, however, were reported in Southern Nevada and on the Mojave desert last night. Power lines at San Bernardino, Redlands and Riverside, fed by generating plants in Inyo county and farther north, were knocked out for several hours. San Bernardino experiencing considerable difficulty regarding illumination. In most of the valley districts of Southern California the rainfall was gentle.

Carried for six blocks in a buggy which had lost the right rear wheel, and which was drawn by a runaway horse, 6-year-old Harpold Garrett, narrowly escaped death last night in Highland Park. His mother, Mrs. Patience Garrett, of No. 1320 Roanoke street, and George Rockwell, 11 years old, son of a neighbor, were thrown from the buggy when the maddened horse, after running for three blocks along Mesa avenue, turned sharply into Avenue 61, breaking the rear wheel from the vehicle.

Mrs. Garrett was rushed to the Receiving Hospital, where her right ankle, which was broken, was set by Police Surgeon Goodrich. The Rockwell boy was only slightly injured.

The horse, after turning into Avenue 61, continued until it reached York boulevard, where it was stopped by two men, who rescued the child from the buggy and turned the vehicle and animal over to the police.

LOVE SENT IN LETTER BRINGS DIVORCE SUIT.

When Albert Franklin Gue found a letter among the effects of his wife, Marie Wales Chandler Gue, addressed "My darling Marie," he signed, "Lovingly, Loren," he determined that some other man had won her love, and yesterday he filed suit for divorce. The writer of the letter said, among other things: "Oh, how heavenly it would be to have you near me, darling. All I can think of is you, always you, and now I am just like a child that has lost its mother. Now I could love you if you were here!"

Many of our boys will return from France speaking the language of that country, and undoubtedly they will be followed by thousands of others who know no other tongue.

Therefore, it is desirable that as many of our people as possible acquire at least a working knowledge of that language.

As a means of contributing to that end, and appreciating the need of a simple, yet complete word book, the Los Angeles Times, through the Information Bureau at Washington, D. Everyone Should Know a Little French

FRENCH is understood in every country on the globe, and it is more nearly than any other an international language.

Many of our boys will return from France speaking the language of that country, and undoubtedly they will be followed by thousands of others who know no other tongue.

Therefore, it is desirable that as many of our people as possible acquire at least a working knowledge of that language.

As a means of contributing to that end, and appreciating the need of a simple, yet complete word book, the Los Angeles Times, through the Information Bureau at Washington, D. C., has obtained from the United States Marine Corps a handy pocket edition of the most generally used French words for free distribution to readers of The Times.

This Book of Selected Words and Phrases will give you an Easy Introduction to the great French Tongue.
